

Additional items on the Keeping Teen Moms in School 'Wish List' Include:

-Car Seats (Currently seeking about 90)

-Baby Wipes

-Pull Ups (for both Boys and Girls)

-Potty Training Kits

-Healthy Baby Food (all stages)

-Bassinets ***Many people use bassinets because they are smaller in size, making them more portable. Most bassinets also have a cover that can protect the baby during sleep. Also, the sides are lower, so leaning over to get the baby is much easier than with a standard or convertible crib. Also, many babies sleep better in smaller spaces because it reminds them of being in the womb.***

-Comfortable seating for pregnant students and new Moms ***Currently there are "fixed student desks" at KTMiS - where the desk is attached to the chair - and students either don't fit in them, or they are very uncomfortable, resulting in students sitting on the floor or cushions***

-Clothes, Coats, Blankets, Toys and Books are always appreciated!

Any questions regarding specific details on the above items can be directed to KTMiS Program Director, Ania Nelson, at (513) 426-6217 or anelson@dohncincy.org

Thank You!
